Paducah Riverport Infrastructure Revitalization and Expansion Project

Port Infrastructure Develop Program

Small Ports & Terminals Project per national Defense Authorization Act for Fiscal Year 2021\

Project cost will be approximately \$3.82 million

Revitalization Components

- Replace 1972 Nordberg 260T Fixed Main Radial Stacker 30"x 150"
- Replace 1966 Marco Model 650 Fixed Radial Stacker (30" x 150') for Sand Storage area
- One Radial Hopper/Reclaimer with fixed conveyor for Sand Storage area
- Replace 1966 Marco Model 650 Fixed Radial Stacker (30" x 150') for Rock Storage area
- Approximately 30,000 square feet for new ground storage pad laydown area and truck route in/out Bulk Yard Facility,
- Demolition and removal of old truck scale in Bulk Yard.
- Two Storage Domes Roof Replacement Systems galvanized frames with tarp/cloth cover increasing covered storage areas

Expansion Components

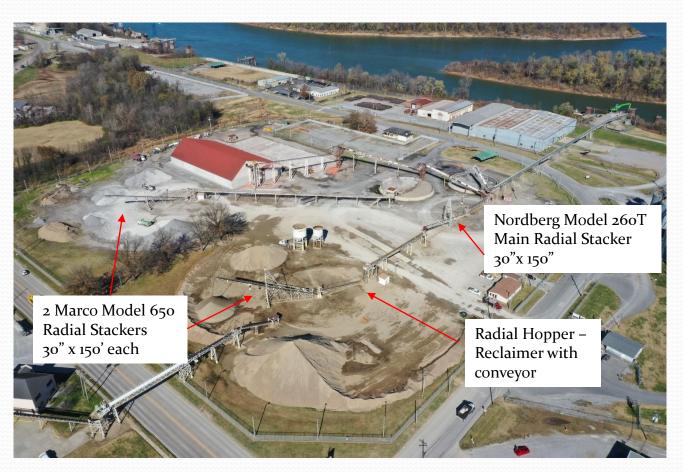

Need identified via increased Federal projects for I-24 and Kentucky Dam along with servicing ongoing Regional growth and increased future commodity diversification for new businesses

- Installation of additional 90-foot x 11-foot truck scale. Reduce dwell times and increase fuel and transshipment efficiencies
- Install 240-foot x 30-foot steel frame with tarp canopy cover on fertilizer building conveyor loadout system. This will increase fertilizer
 product transshipments by increasing loadout of product during inclement weather conditions
- 3 Transfer Ground Conveyors 30" x 100' to be utilized for bulk commodity Storage Yard area expansion and commodity diversification
- One Radial Stacker 30" x 100' to be utilized for new commodity storage area expansion within the confines of our existing bulk yard facility
- Purchase of four (4) Gen/Set 3phase 440-volt 83KW to supply power as needed for new ground conveyors and radial stacker

Paducah Riverport Infrastructure Revitalization & Expansion Project

Replace Three Fixed Radial Stackers

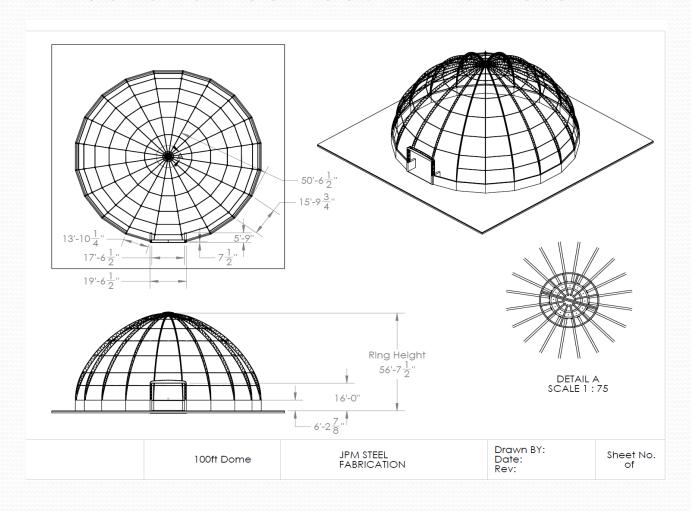

1972 Nordberg Model 260T Main Radial Stacker 30" x 150' Replace 2 existing 1966 Marco Model 650 Radial Stackers 30" x 150 Replace 1 Marco Radial Hopper/Reclaim with fixed conveyor system

Paducah Riverport Infrastructure Revitalization & Expansion Project Bulk Yard Dome A & B - Roof Reconstruction with galvanized frame and 15-year warranty tarp/cloth cover

New Dome Roof Structures 100' and 108' feet in Diameter

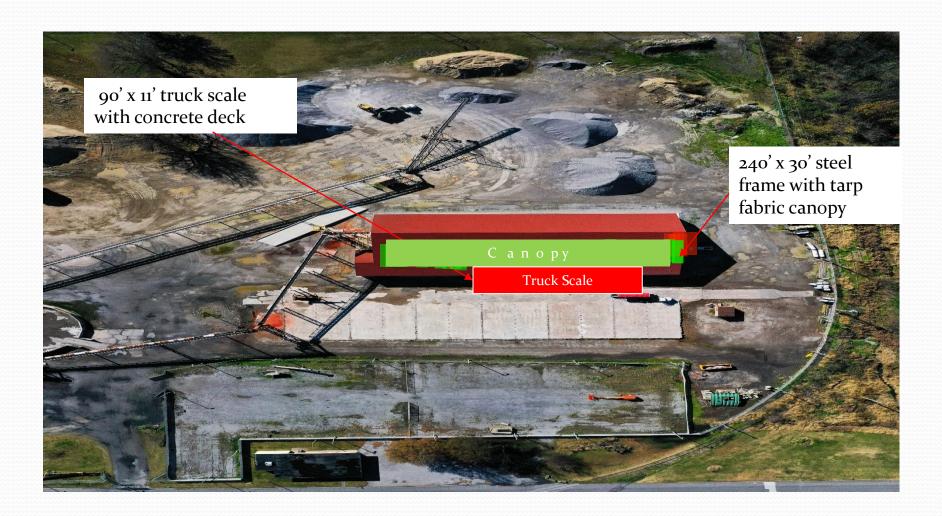

Paducah Riverport Infrastructure Revitalization & Expansion Project

Bulk Storage Yard Paved Pad Area and Entryway Approximately 30,000 Sq. Ft.

Demolition & removal of old scale.

Installation of Additional Truck Scale & Steel Frame and Fabric Canopy

Paducah Riverport Infrastructure Revitalization & Expansion Project Bulk Yard Commodity Storage Expansion Three (3) 30" x 100' Ground Conveyors & 1 Radial Stacker

Paducah Riverport Infrastructure Revitalization & Expansion Project 1 Radial Stacker 30" x 100' minimum 3 Transfer Ground Conveyors 30" x 100'
